README

Gontobbo — Bus Management & Online Ticket Booking System (PHP + MySQL, MVC)

A university project for a 4-role bus ticketing system: **passenger**, **bus driver**, **admin**, **maintenance manager**. Written in plain PHP with procedural `mysqli` and prepared statements. No frameworks, no Composer, no build step. Copy it into XAMPP and it runs.

1. Install (XAMPP)

1. Copy the `Gontobbo` folder into `C:\xampp\htdocs\` so it becomes `htdocs/Gontobbo/`.
